

Illustrated states

One picture per situation, not per screen. Tick as each ships.

27 illustrations	0 drawn	27 to go	10 admin states skipped
----------------------------	-------------------	--------------------	-----------------------------------

Tier 1: do first

Most seen, and the moments people remember

8

☐	success-sent	Money sent / paid	PaymentSuccessScreen, ScanAndPayFlow
☐	success-scheduled	Scheduled or repeating payment set up	PaymentSuccessScreen, StandingOrderFlow
☐	success-created	Card requested, group or account created	RequestCardFlow, groups/success, RequestFlow, AddAccountDialog
☐	moment-welcome	Welcome, {name}: first run	FirstRunWelcome (dialog)
☐	moment-account-ready	Your virtual / GCB account is ready	signup step 6, accounts, UnfundedNudge
☐	caught-up	Nothing waiting on you	approvals, notifications
☐	no-results	Filter or search matched nothing	11 customer filtered states, locate-us
☐	load-error	Couldn't load, retry	12 customer error states

Tier 2

New-customer landing pages, onboarding, card delivery

12

☐	empty-cards	No cards yet (CSS placeholder today)	cards/page.tsx
☐	empty-activity	No transactions or activity	TransactionList, accounts/[id], cards/[id]
☐	empty-people	No people or billers saved	beneficiaries (people, billers)
☐	empty-sources	No cards or wallets linked	accounts/page.tsx
☐	success-funded	Source linked or wallet funded	LinkSourceAccountModal, QuickFundModal, FirstRunWelcome
☐	success-welcome	Account opened, onboarding done	signup, signup/business
☐	moment-migration-welcome	Welcome for migrating customers	migrate/page.tsx
☐	delivery-preparing	Card being prepared	CardDeliveryTracker, details hero

☐	delivery-in-transit	Card on the way	CardDeliveryTracker, details hero
☐	delivery-out-for-delivery	Rider has it, arriving today	CardDeliveryTracker, details hero
☐	delivery-ready-for-pickup	Ready at the branch	CardDeliveryTracker, details hero
☐	delivery-arrived	Arrived, needs activating	CardDeliveryTracker, details hero

Tier 3: long tail

Rarely seen; some may stay a plain icon

7

☐	empty-groups	No payment groups	beneficiaries (groups tab)
☐	empty-standing	No standing orders	payments/standing
☐	empty-statements	No statements available	accounts/[id]/statement
☐	empty-rates	No FX rates published today	fx-rates
☐	empty-chart	No spend in this period	AccountExpenses, reports
☐	success-pending-approval	Sent for approval	payments/bulk, trade/new, approvals
☐	success-secured	Password reset, card verified	forgot-password, card-verification

Code

Plumbing: two of four done

4

☒	slot	Illustration slot on every empty, no-results and error state	ListStates.tsx
☒	registry	StateIllustration + registry: drop an SVG, flip drawn	state-illustrations.ts
☐	caught-up	Give all-caught-up its own state, not TrueEmptyState	approvals, notifications
☐	success	Extract a shared SuccessState; wire success + moment screens	PaymentSuccessScreen.tsx

Rules: customer shell only (admin keeps the plain icon). Toasts are never illustrated. Never illustrate rejection, compliance, PIN or blocked-card dialogs. **pending-approval** and **secured** may fold into other pictures.

How a drawing ships

1. Export **public/illustrations/<id>.svg** (optional **<id>.dark.svg**).
2. In **src/lib/state-illustrations.ts** set that id to **drawn: true**.
3. Every screen wired to that id now shows it. Until then the icon stays, so partial sets are safe.
4. Tick it here.

Canvas: author at 2x, set only a viewBox

Placement	Used for	viewBox	Shows at
empty	empties, caught-up, no-results, load-error	0 0 400 264	200 x 132
success	success screens	0 0 480 320	240 x 160
moment	welcome, account-ready, delivery stages	0 0 640 400	320 x 200

Checklist for every file

- ☐ SVG only. No embedded raster, no embedded fonts, no text in the art (screens are translated).
- ☐ Transparent background. Under about 30 KB. Static for now.
- ☐ Keep everything inside an 8% margin. Weight sits lower-centre: the text goes directly below.
- ☐ Drawn on the light panel; checked on the dark one (#1e1e1e). Add a .dark.svg if it doesn't hold up.
- ☐ No pure black or pure white fills. Card palette (gold, blue, maroon, slate, emerald) plus one dark ink.
- ☐ Art is decorative (alt is empty): never put information only in the picture.
- ☐ File name = registry id, exactly.

Tone

empty an invitation, not a scolding: there is always a next step

load-error reassuring: nothing is wrong with their money

success relief, in proportion: a small transfer gets a tick, not confetti

moment the one place to be warm and big
