

Bundles Flow: Decision Tree & Funnel Architecture

Complete Network-First Funnel, Identifier Rules & Package Catalogues

ARCHITECTURAL RATIONALE: NETWORK-FIRST FUNNEL

Positioning **Choose Network** immediately after **From Account** creates an unambiguous, robust funnel. It prevents invalid combinations (e.g., broadband on AT), removes jarring input resets, and cleanly branches the form into telco-specific product types (MTN Fibre vs. TurboNet vs. Telecel Broadband User ID vs. Mobile Data).

1 End-to-End Decision Funnel

2 Network & Product Specifications

MTN Ghana3 BUNDLE TYPES	Telecel Ghana2 BUNDLE TYPES	AT Ghana1 BUNDLE TYPE
1. Mobile Data Field: Phone Number (024, 054, 055...) 1GB (GHS 6) · 2.5GB (GHS 15) · 5GB (GHS 30) · 15GB (GHS 80) · 30GB (GHS 150) · 100GB (GHS 350) 2.
